Project Background

Bruges Communiqué identified problems with lack of trainings increasing competence of students in areas needed by enterprises and lack of innovative solutions for student-teacher-enterprises collaboration in vocational and high education trainings.

Project Strategic Partnership for Creativity and Entrepreneurship (acronym SP4CE) addresses directly aims and needs identified in Bruges Communiqué on enhanced European cooperation in vocational education and training, especially in the areas of:

- improving the quality and efficiency of vet and enhancing its attractiveness and relevance,
- enhancing creativity, innovation and entrepreneurship.

Project Background

Project results and actions will be connected with:

- promoting innovative practices in education,
- training by supporting personalised learning approaches,
- collaborative learning and critical thinking,
- strategic use of Information and Communication Technologies (ICT),
- promoting and using Open Educational Resources (OER),
- open and flexible learning,
- virtual mobility,
- other innovative learning methods.

Project Background

Developed during the project SP4CE portal will provide the space for:

- problems to be solved, questions to be answered,
- creation of the teams which want to work towards the problem solution,
- work for teams or individuals to develop the solution,
- mentoring & coaching,
- presentation of developed solutions,
- publishing of the chosen solution.

Project Background

Project results:

- SP4CE learning portal
- SP4CE pedagogical concept
- Guideline for consultants (enterprises)
- Guideline for mentors (schools teachers)
- Guideline for general public „How to use SP4CE portal“

Target groups:

- Coaches (enterprises, industry)
- Mentors (vocational school, university, high school)
- Students (vocational school, university, high school)

Project partners

PIAP (project leader) is a research institute and has rich experience from coordination and participation in several different vocational education and research projects, additionally PIAP has experience from collaboration with industry enterprises and educational institutions. <http://www.piap.pl/>

IDEC has extensive experience in European projects, either as coordinator or as partner from different European programs and Initiatives. IDEC has consulting experience in developing quality management systems in Greek training centres. <http://www.idec.gr/>

Project partners

TREBAG has rich experience from development of innovative training materials and methodologies including e-learning (e.g. related to vocational training) and implementation of technology transfer and innovation chain management as well as technology transfers. <http://www.trebag.hu/>

TUK as technical university dealing with university teaching and international cooperation in the area of research and education, fostering links with institutions in private and public sectors and thus responding to their needs and to the needs of society in general. <http://www.tuke.sk/>

Project partners
